Cell−Type Composition Across Developmental Stages
Basal epithelial cells
Cardiac / slow skeletal muscle cells
Cephalic skeletal muscle cells
Chondrocytes / cartilage cells
Ciliated / otic epithelial cells
Endothelial cells
Epidermal epithelial cells
Erythrocytes
Erythroid cells
Erythroid progenitor cells
Fast skeletal muscle cells
Fibroblast / ECM cells
Gill / ion−transporting epithelial cells
Hepatic cells
Intestinal epithelial cells
Ion−transporting / pharyngeal epithelial cells
Lens cells
Macrophages / immune cells
Melanocytes / pigment cells
Mucosal / olfactory epithelial cells
Myogenic progenitor cells
Neural / glial cells
Neural crest / mesenchymal cells
Neural progenitor cells
Neurogenic progenitor cells
Neurons
Notochord cells
Pancreatic acinar cells
Perivascular / cranial mesenchymal cells
Perivascular cells
Photoreceptors
Skeletal muscle cells
